

Power Train 30 Amp 6/12/24V Auto 8 Stage Battery Charger

The Power Train 30 Amp 6/12/24V Auto 8 Stage Battery Charger is a high quality, multi-stage battery charger designed to safely and effectively charge all automotive and industrial type batteries. Manufactured to the latest design parameters and highest quality standards, they incorporate a unique micro-processor controlled Eight Stage Pulse Charging system, which intelligently assesses battery condition and size, to make battery charging much safer, much more effective - and thus prolong battery life. They are ideal for Automotive, Motorhome and Marine applications, to ensure the correct, safest and BEST method of charging a high capacity 6V/12V/24V battery bank or individual batteries.

Features:

- Fully automatic voltage selection and 8 stage charging system
- Suitable for charging 6/12/24V Gel, Lead Acid, AGM, Calcium and 12V only Lithium (via MODE button)
- Large easy to read LED display shows the charging stage status, volts and amps output and battery capacity
- Zero Volt battery charging, enabling recovery and charging of a completely deep discharged battery
- Inbuilt protection systems for safe operation
- 5V DC power supply for 20A, 30A and 40A output currents with overload and short circuit protection
- Faulty Battery indicators

Specifications:

- Type: 8 Stage Battery Charger
- Input Voltage: AC 175 - 255v / 50 - 60 Hz
- Output Current: 30amp
- Output Voltage: 6/12/24v and 13.5 DC
- Rechargeable Battery Type: Gel, Lead Acid, AGM, Calcium, Lithium (12V only)
- Chargeable Battery Type: 17 A/H to 300 A/H
- Working Temperature: -15°C to 55°C
- Start Voltage: 0 volts
